St. Pat's May Be Broadcast This Year

The St. Pat's Board held an important meeting Wednesday night in order to make further plans for the St. Patrick Day celebration. The dance programs have been selected for the Coronation Dance which will take place on Friday night.

The St. Pat's Board is trying to make arrangements with a broadcasting station or company to carry a part of the St. Pat's program over the air. They wish to broadcast a portion of the coronation ceremonies on Friday and to have a one-half hour program over the air again on Saturday night.

The price of the tickets is still undetermined. However, it is thought that the price will be about the same as that of last years tickets.

Plans were made to have the pictures of all of the maids of honor in the MINER as soon as they are all chosen. Many of the maids have already been chosen and it is desirable that the remaining maids be chosen as soon as possible.

The St. Pat's Board is circulating a petition to the members of the faculty that Friday afternoon classes be held on some Saturday afternoon after St. Pat's. A similar petition is being circulated among the student body. Any student interested in signing such a petition is urged to con-

APO Initiates Four New Men

The Beta Omicron Chapter of Alpha Phi Omega, national service fraternity, held initiation for four new men last Thursday night, February 12, the ceremonies were held at 8:00 p. m. in the A.P.O. Room located in the Power Plants Building.

Those men initiated were: Robert Schmidt, Stephen Kline, and Robert Murphy as active members and Clark Boyd as Faculty Advisor. The fraternity now has a roll of 24 actives and 10 pledges. Professor Boyd joined Professors Guest, Black, Dennie and Kershner as the chapter's faculty advisors.

After the initiation the members attended the Miner-St. Louis basketball game in a body and then returned to the chapter room for refreshments. The next meeting has been set for this coming Wednesday, February 18, at 7:00 p. m.

Prof. Carlton Chairman Of S. P. E. E. Committee

Word has just been received from Professor J. S. Dodds, professor of Civil Engineering at Iowa State College and Chairman of the Division of Civil Engineering of the S.P.E.E., that Prof. E. W. Carlton has been appointed as Chairman of Committee VII, Surveying and Geodesy, of the Society for the Promotion of Engineering Education. Professor Carlton has been a member of this committee for some time.

tact a member of St. Pat's Board.

The bids for the handling of the cloak room have not been acted upon and more bids are desired.

Harvey Barnett Awarded AICHe Scholarship

Harvey Barnett, Junior chemical, was presented the MSM Chapter Scholarship Award of the A. I. Ch. E. at a meeting Wednesday night. The award which consists of an A. I. Ch. E. membership certificate and a membership pin is given each year to the chapter member who has the highest scholastic standing during his freshman and sophomore years. Dr. F. H. Conrad, chapter counsellor, made the presentation.

The speaker of the evening was Mel Flint, the chapter president, who explained the nature of his work at the Solvay Process plant in Syracuse, N. Y. last summer. With the aid of diagrams he described the construction of a pilot plant and the difficulties which must be overcome in its successful operation.

During the business meeting a report was submitted by the program committee for the regional convention to be held at M. S. M. this spring. The committee outlined plans which would feature a chemical warfare show during the convention.

Cloak Room Bids Must Be In By March First

Bids are now open for the cloak room concession at St. Pat's for March 20 and 21.

Any student interested in operating this concession should turn his bid in not later than March 1 to any St. Pat's Board member. All bids must include the price the concessionaire will pay for the concession, the price he intends to charge, and the number of helpers he intends to hire.

The concessionaire must assume all responsibilities of operation. For any further information see or call Art Rose or Jack Lyons.

30 cents will admit spectators to the Military Ball to be held in the MSM Gym Saturday night.

Vassar Hitting Lower In Marriages This Year

POUGHKEEPSIE, N. Y.—(ACP)—Cupid's bow is hitting fewer Vassar graduates.

The college reports that only 28 of the June graduates are engaged or married. Last year's class was smaller by 13, but 46 of the young women were engaged or married in the corresponding length of time.

Highway Engineer Anticipates Rise In Public Works

C. W. Brown, chief engineer of the Missouri State Highway Department spoke at a meeting of the ASCE Tuesday. Mr. Brown, a graduate of Missouri University and a director of the American Road Builders Association, expressed facts about "Highways and the Highway Program As Affected by National Defense." Since war has been declared the road program has been at a stand still.

In explaining the 1942-43 allocation of federal-aid money for Missouri, Mr. Brown said that according to present advices, the money can be used only for projects certified by the army or navy as essential to the national defense, or to public health and safety.

Looking to the future, however, Mr. Brown has urged that a reasonable amount of survey and plan work and right-of-way acquisition be continued, "as it is anticipated there will arise a necessity for a larger volume of public work when the present emergency is ended, and we should be prepared for it when it arrives."

Glee Club Applications Must Be In By Mar. 1

At the first regular practice of the MSM Glee Club held last Tuesday, it was decided that the regular time and place for rehearsals will be on Tuesday evenings at 5 o'clock in Room 104, Norwood Hall. An informal meeting will also be held when requested on Sunday afternoons at 2:30 in Parker Hall for the benefit of those who will be unable to attend the regular meetings.

All Miners who are interested in joining the Glee Club should attend the next meeting or get in touch with Richard Ollis or George Tuer. No application will be considered after the first practice in March.

It's Not Papa Who Pays, Says Pennsylvania Court

PHILADELPHIA, Pa.—(ACP)—Father doesn't owe sonny a college education, according to a ruling of Pennsylvania's state superior court.

Setting a legal precedent for Pennsylvania, the tribunal, upon appeal of Morgan T. Binney, Glendolen, Pa., reversed a lower court order that he pay his son \$1,500 a year for "campus" support.

Chancellor to the Panamanian consulate at New Orleans is Juan Diaz, senior in law at Louisiana State University, a native of Panama.

Detonators Will Drill At SAME Ball

A Detonator detail of twelve men will give a performance of special drill and fancy manual of arms during the ceremony of the commissioning of Miss Dorothy Nolan as Honorary Cadet Colonel of the regiment tonight.

Sergeant James H. Bottom will command the Detonators. Cadets John F. Burst, Harold B. Avery, Howard M. Stangland, Carl R. Fitzpatrick, Alan P. Ploesser, Joseph L. Haleski, John D. Mueller, Fred E. Nevin, Carl Finley, George C. Kalbleisch, George Blaich, Bernard J. Einspanier, and Albert Hoffman will compose the squad.

MSM Dames Join National Society

The Dames of the Missouri School of Mines have recently joined the National Organization of University Dames. The nationalization of the local Dame's organization was made possible by the MSM Faculty Wives who donated money to pay initiation fees of the national organization.

To be a Dame at any college it is necessary to be a nonresident of the community in which the college is located and be the wife of a student or faculty member.

Officers of the organization are: Mrs. Winson B. Kehr, President; Mrs. Raymond Kelly, Vice-President; Mrs. Kenneth Roffman, Correspondence Secretary; Mrs. Lynn Fornash, Recording Secretary; Mrs. Vernon Trotter, Treasurer.

The Advisory Board consists of Mrs. Dean L. Wilson; Mrs. Prof. C. D. Thomas; Mrs. Prof. A. J. Miles.

Miners Register Tomorrow for Draft

A special registration board has been appointed to register students and employees of the School of Mines for the National Draft.

A group of authorized ex-service men will be on hand at the U. S. O. Building at the corner of Ninth and Rolla Streets from 1 to 5 p. m. on Sunday, February 15th, and from 7 a. m. to 7 p. m. on Monday, February 16. It will be with this group that MSM students should register.

EXPERT SAYS GOOD AIR FORCE IS VITAL TO COAST DEFENSE

By Jean Lloyd

Kent Sagendorph, prominent authority on aviation in America, lectured on America's status in the present World War with reference to air combat, Wednesday night in Parker Hall. Because of a thorough knowledge of airplane industry and production, Mr. Sagendorph was able to describe accurately the relationship of aircraft to the present war.

In his lecture, Mr. Sagendorph criticized the planes which the Army was using, and offered constructive ideas on what sort of alterations should and probably would be made in the future. He stated that the Army needed in the near future pursuit planes, interceptors, dive bombers, which are the artillery of the air, medium bombers, and heavy bombers.

He further commented on America's war status at present by saying that when Singapore falls, the Japanese military

forces will invade the Hawaiian Islands. It will only be through the resistance of a powerful air force that such an attempt can be thwarted, he said. He stated also, that if the Hawaiian Islands are taken by the Japanese, an attempt might also be made to invade the western coast of the United States. Again, he said, such an invasion could only be prevented by an efficient and strong air force.

Mr. Sagendorph criticized the manner in which army maneuvers were conducted by saying that in the maneuvers, the enemy was required to follow definite rules of restricted methods of attack and ethics of war, but that in actual war, our enemy, the Japanese, were not equipped with copies of our rule books.

He stated the opinion, also, that if Singapore falls, the war will be prolonged from three to five years.

In The Campus Spotlight

By Neil Stueck

Man of the week, so to speak, for the Campus Spotlight is W. Matthew King. Better known as Welby, this senior Met. is particularly at the focal point this week-end, since he is the

man who brings Miss Dorothy Nolan, the new Honorary Cadet Colonel, to the M.S.M. campus for the S.A.M.E. Ball.

However, his way with the women is but a small part of the recognition due him. While here at the Missouri School of Mines Welby has piled high a distinguishing list of campus activities.

As Vice-President of Tau Beta Pi and a member of Phi Kappa Phi, the school's two honor fraternities, we see his merit in scholarship and character. Membership in Theta Tau and Blue Key attest to his popularity and service. Besides these he is a member of the Student Council, is on the Rollamo-Miner Board of Control, is secretary of the Independents, and vice-president of the student chapter of the A.S. M. From the selection by the Military department he entered the advanced R.O.T.C. unit and this year was appointed Cadet 1st Lieutenant, Company D. He is also treasurer of the American Society of Military Engineers.

Welby comes from Rock Port, Mo., and entered M.S.M. on a curator's scholarship in 1937. Accordingly, he would have graduated last year had he not worked a year between his sophomore and junior years. During this time he was employed by the

"Knee-length skirts have reduced street car and automobile accidents 50 per cent."

"Wouldn't it be fine if accidents could be prevented entirely?"

Captain: Now suppose you are on duty one dark night. Suddenly a person appears from behind and wraps two arms around you so that you can't use your rifle. What would you say?

Cadet: Let's go, honey.

You sing a little song or two; And you have a little chat; You make a little candy fudge, And then you take your hat. You hold her hand and say goodnight,

As sweetly as you can; Ain't that a hell of an evening For a great, big healthy man?

For beauty, I am not a star; There are others more handsome by far;

But my face—I don't mind it, For I am behind it, The people in front get the jar.

"What is your name, son?"

"Julie, sir."

"You shouldn't abbreviate. Your name is Julius. Next, what's your name?"

Scared Pupil: "Bilious, sir."

One Guy: "Do you suppose your son will soon forget all he learned at college?"

Other Guy: I hope so! He can't make a living necking."

Bethlehem Steel Company in the fabricating and erection divisions through Illinois, Nebraska, and Oregon.

From this work and experience he changed his curriculum from chemical engineering to metallurgy.

For hobbies he likes to swim, wrestle, and shoot. Last summer at the Advanced R.O.T.C. camp at Fort Leonard Wood he won awards in both the rifle and pistol classes.

At present the U. S. Army will take Welby and his career into hand, but after that he is hoping for a place in the Steel Industry, perhaps with Bethlehem Steel.

Intramural Sports

By Charlie Mitchell

In the semifinals of the singles handball tournament John Mazzoni defeated Nick Mushovic to go into the finals. Durphy likewise moved into the finals when he defeated Schilling.

In the playoffs Mazzoni beat Durphy. Mazzoni represented Triangle and Durphy was the Seniors nominee. This second place in the handball will add quite a few more points to the already high number of Intramural points in the possession of the Seniors.

Basketball

The basketball season is rapidly drawing to a close. Nine more tilts brought the total of games played to a total of sixty-one. There are seventeen games still to be played.

The results of this week's tussles are as follows:

ALT, 11; Pika, 13.
Theta Kap, 33; Frosh 20.
Seniors, 41; Juniors, 26.
Kappa Alpha, 13; Lambda Chi, 17.

Sophs, 21; Triangle, 14.
Sigma Pi, 10; Theta Kap, 16.
Pika, 11; Kappa Sig, 4.
Lambda Chi, 19; A.I.T., 16.
Frosh, 31; Triangle, 20.

Game Comments

Surprise of the week came from the house of Lambda Chi. Heretofore the LCA's have had a rough season, but twice this week they came out victorious. Bartels has been pacing the Lambda Chis in this recent spurt, they now have a record of 2-9.

The Seniors rolled on, led by Joe Schmitt and looked like a cinch to continue undefeated.

The Sophs victory raised their standing. The Frosh despite the loss to Theta Kap, is still high.

The Standing

Theta Kap seems determined to hold on to third place and maybe pull the Kappa Sigs down from the second slot.

For Pika Presley Paul, Hartcorn, and Wyman are standing out. Don Wyman is also known for his ability on the gridiron.

Running over the conference with a quick glance and giving a little credit where it is due we should mention the fine playing of Hager, Senior, Brown, Triangle; Sievert, Sophs; Johnson, Junior; Richmond, Frosh; and Schmitt of the Seniors.

Boxing—Wrestling

The boxing and wrestling weights are as follows with a two pound allowance, 112, 118, 126, 135, 145, 155, 165, 175, heavy-weight. One man is allowed in each event per team and any individual can compete in but one of the sports.

"Chorus girls have a hard time, don't they?"

"Yes, they do have to bare a great deal."

Eyes Over The Campus

GEORGE WASHINGTON

IN 1796 GEORGE WASHINGTON DONATED TO WHAT IS NOW WASHINGTON AND LEE COLLEGE \$50,000 WORTH OF JAMES RIVER CANAL STOCK, AS AN EXPRESSION OF HIS INTEREST IN THE IDEALS AND ENDEAVOR REPRESENTED BY THE INSTITUTION.

THE GIFT STILL YIELDS AN INCOME, AND EVERY STUDENT AT W.&L. MAY BE SAID TO RECEIVE FROM GEORGE WASHINGTON A SUM TOWARD HIS EDUCATION.

BROWN UNIVERSITY COMMENCEMENTS HAVE BEEN HELD AT HISTORIC OLD FIRST BAPTIST MEETING HOUSE SINCE 1775!

CADETS AT THE CITADEL SHINE THEIR SHOES FOUR TIMES A DAY!

What's A Coat For Anyway? Minister: "You'll ruin your stomach drinking that stuff."

Miners Gunning For First MIAA Victory Tuesday In Bear Game

With but two remaining conference games on the schedule the Miner basketball team will try to hang up their first conference victory Tuesday night when they meet the Springfield Bears at Jackling Gym.

The Bears rank one rung higher on the conference ladder than the Miners do. They have two victories in conference play, having defeated the Miners and the Maryville Bearcats.

Although the Bears have had

just mediocre success this season they have defeated some powerful teams. Twice the Golden Hurricane of Tulsa succumbed to the flashy Bear attack.

In their last encounter with the Miners, Jim Ball and Carl Jeffries were the big guns who sparked their 51 to 30 victory.

Coach McDonlad of the Bears will depend on Center Jim Ball to lead his team to victory over the revamped Miners. Carl Jeffries and Johnny Bucklew will probably get the nod for starting forwards. Phil Crawford and Eddie Lore both of football fame, will start at guards for the Bears.

Coach Gill will depend on the same quintet that has been sparking the Miners in their belated drive to upset the Bears. Jack Nevin and Don Smith will start at the forwards. Counts will be at center, with Main and Moore at the guards.

Coeds Prefer "Droop" To "Stylish Swagger"

PALO ALTO, Calif. (ACP) — The posture of the present-day co-ed is the "collegiate droop," as contrasted with the "stylish swagger" affected by her campus sister of ten years ago, Evelyn Anderson of Stanford university and Mrs. Velda C. Row of San Francisco State college reported to the American Physiotherapy association.

The "stylish swagger" they described as giving the effect that the user thereof has a bustle, with chin up, chest out, and hips trailing far behind.

On the other hand, they said, the "collegiate droop" demands a weary slump forward of the shoulders, back curved and hips well forward. It is particularly advantageous for tall girls, who thereby give the impression of being shorter.

Examinations of 200 freshmen women each year gave the researchers their information.

Thirty-eight per cent in recent tests had switched to the "collegiate droop," and seemed thereby continually hurrying home to get out of the rain.

A bare 17 per cent clung to the "stylish swagger," and an encouraging 41 per cent had good posture.

E. E. MILLER, Prop.

Miner Basketeers Bow to Bills 45-33

By George Burke

In the roughest game played on the Miner court this season, a sporadic Miner five lost its fourteenth consecutive game to the St. Louis University five, 45-33.

During the first half, neither team showed any exceptional offensive action, because of the large number of fouls committed by both teams. The Miners lost several good scoring opportunities through their loose ball handling and wild passing.

Moore opened the game with a one-handed shot, but Van Deven countered it with a long shot. Main put one through the net from the middle of the floor to push the Miners ahead. McCarthy then moved in to make two successive layups. Main evened the score at 6-6, with another long shot. The rest of the half found St. Louis moving ahead on foul shots, and when the half ended, they held a two point lead over the Miners, 17-15.

Moore opened the second half with a pivot shot to even the score at 17-17. St. Louis came back and pushed steadily ahead on field goals by Van Deven and McCarthy. Five minutes after the start of the second half, the Miners began to find the range, and on successive shots by Nevin, Spinner, and Main, the Miners pulled to within one point of St. Louis, 26-27. A minute later, Smith tallied to push the Miners ahead, but two free throws by McCarthy regained the lead for St. Louis. Van Deven put through a long shot only to have Main repeat the same performance. A field goal and foul shot by McCarthy and a field goal by Van Deven put St. Louis ahead 36-30. Spinner scored for the Miners from the sideline to raise the score to 32-36. A free throw by Nevin added another to the Miner total. Bandle, McCarthy and Van Deven scored for St. Louis to bring the score to 45-33 as the game ended.

Main and Nevin were high scorers for the Miners, with eight points apiece. Main drew cheers from the crowd several times with his long shots from mid floor. Van Deven was high scorer of the game with twenty points, followed by his teammate McCarthy with fifteen points.

The Miners made seven out of 48 shots the first half, and eleven out of 55 shots the second half, for sixteen percent of the evenings total.

Track Hopes Slim With Loss of Last Year's Stars

Track prospects at MSM for the coming season are not too bright, even with the possibility of some nine lettermen returning. The loss of Ga Nun, Bouchier, and Corneau through graduation, and Hessman and Pierce leaving school will be hard felt by the team. Ga Nun was the highest point scorer on the team, and the best 440, 880, and mile on the team. Bouchier tossed the javelin; Corneau ran the low hurdles; Hessman pole vaulted and threw the discus; Pierce ran the 440 and was anchor man on mile relay.

Charley Mitchell is expected to return and run in the 100 and 220 yd. dashes, and on the 880 yd. relay team, of which he was anchor last year. Mitchell was fourth highest point getter on the team, and should prove to be one of the main cogs of the team this year. Joe Bush is expected to return in the 440 and 880 yd. events, and the 880 relay. In the distance department Kalish, Batterman, and Blair are expected to return. Bob Kendall will probably be back to hold down the high hurdle post. Leo Spinner will be back in the high jump, as will Perkins in the broad jump and javelin events. Haas will be the only regular pole vaulter to return from last year's crew. Leone will probably be back in the weight department heaving the shot and discus.

With the disbanding of track by Warrensburg and Kirksville, the Miners are going to face only the best teams in the MIAA with no breather between meets. Cape Girardeau again looks like the favorite to cop the title. The Miners finished fifth last year in

the conference ahead of Warrensburg, but behind Kirksville.

Any student who has any previous track experience is urged to try out for the team, and to start training now. There is room for many new men, and if they in any way show promise they have a good chance of making the team.

There will be a meeting for all those interested in track, next Thursday evening at 7:15 p. m. in Jackling Gymnasium. All track men who are interested are urged to attend this meeting, so plans for the team may be started.

Modern Education Again

"I hear your son is at college."

"Yep."

"How's he doing?"

"Pretty good I guess, he's taking three courses. I've just paid ten dollars for Latin, ten dollars for Greek and a hundred dollars for Scotch."

Adam Good Reason

Adam and Eve had an awful time

Truly I am no liar;

They couldn't have owned a car at all

Because they lacked attire.

The stingy farmer was scoring the hired man for carrying a lighted lantern to call on his best girl.

"The idea," he exclaimed. "When I was courtin' I never carried no lantern. I went in the dark."

"Yes," said the hired man, sadly, "and look what you got."

Voice over the phone—"Pop, guess who got kicked out of college."

Emotions Of Rats And People Are Parallel

BERKELEY, Calif.—(ACP) — Rats have emotional and personality traits paralleling those of human beings, believes Dr. Robert C. Tryon, University of California psychologist.

His findings are based on years of observation, during which he has determined that rats are better subjects for emotional and nervous reaction study than human beings.

Dr. Tryon has established that the female rat is more "high-strung," and is capable of more complex and varied emotional responses than the male.

Twenty per cent of the females, he found, are more emotional than the most emotional male. Likewise, 20 per cent of the males are less emotional than the least excitable female.

He has found the emotional behavior of rats and other rodents varies from the "neurotic," or nervous animal to phlegmatic rats, almost incapable of very great emotional reactions.

Alcoa, G. E., Shell Recruit MSM Men

Three companies, Aluminum Co. of America, General Electric, and Shell Oil, have recently offered jobs to a large group of senior Miners. From the Mechanical Department General Electric has offered positions to Ralph Neubert, Leonard Woolf, Kenneth Roffmann, Connie, Roffmann's wife, has also been offered a secretarial position in case husband Kenny decides to take the offer. From the Electrical Department General Electric has offered positions to Arthur Wilson, Harry Smith, Clarence Stevens, and Charles Vogel. As an added inducement to the fellows to take the positions offered them, General Electric has also guaranteed full occupational deferment.

The Cleveland Branch of the Aluminum Co. of America has offered jobs to Leonard Woolf, Ray Kelley, and Gordon Engle. It is also expected that considerable number of offers will come from the Pittsburgh branch of Alcoa, but, as yet, no word of these has been received.

As has been its custom in the past Shell Oil Co has indicated the names of those graduates it wishes to interview on the basis of applications sent in last fall. Those who will meet with a representative of this company when he comes to Rolla are Robert Guernsey, Norman Loesing, Robert Brackbill, G. G. Haas, J. W. Zoller, Vernon McGhee, Robert Guilfooy, Ralph Neubert, Eugene Hilton, Bill Busch, John Harris,

What To Do In Case Of An Air Raid

1. As soon as the bombs start dropping, run like H—. It really doesn't matter where just so long as you run. Wear spiked track shoes, if possible. Ponies are helpful if you sit in the back row. It is perfectly ethical to use prostrate bodies as stepping stones. If you carry chalk, Hopscotch is fun.

2. If you find an unexploded bomb—pick it up and shake it vigorously. Perhaps the firing pin is stuck.

3. If an incendiary bomb is found burning nearby—throw gasoline or back issues of the MINER on it. You can't put it out anyhow so you might as well have a little fun. If fire catches on to important buildings, or crib notes, call Rolla and get a wet blanket.

4. When the first bombs fall, you yell the loudest. Leather medals to those with largest set of air-cooled tonsils. Clapping and stomping recommended. It will add to the fun and scare the hell out of the kids. It's well to have onions or limburger handy as a snack before entering crowded air-raid shelter. It makes you unpopular but you have more room!

6. If you should be the victim of a direct hit—don't go to pieces. Just lie still and the sanitary squad will pick you up on a nice clean blotter.

7. If an air raid warden tries to tell you what to do, whap him over the noggin with an old toboogan, (or facsimile), wardens always take the best places.

8. SPECIAL FOR GIRLS—in blackout don't get panicky, open the windows put out the lights, lie flat on the floor, and cooperate with the air raid warden.

Herbert Brueschke, and F. E. Johnson.

February 18 has been set as the date for interviews with a representative of General Motors who will come from Detroit on that date.

Off the Campus

Sigma Pi

Wednesday evening the chapter had the pleasure of entertaining Lt. Rhodes class of '41, who is now stationed at Fort Leonard Wood.

Mr. Richard Schumacher and Mr. William Smothers were elected co-captains for the coming Inter-Fraternity bridge tournament.

Miss Edith Hoffman has been elected house queen for St. Pat's. She will be the guest of Mr. Ben Weidle.

Moving Pictures

A recent movie comedy showed on the screen a bevy of shapely girls disrobing for a plunge in the "old swimming pool." They had just taken off shoes, hats, coats and were beginning on — a passing freight train dashing across the screen obscured the view. When it passed, the girls were frolicking in the water.

An old railroader sat through the show again and again. At length an usher tapped him on the shoulder.

"Aren't you ever going home?" he asked.

"Oh, I'll wait a while," was the answer. "One of these times that train's going to be late."

Rifle Team Wins Two Matches And Drops Three

The M. S. M. rifle team has scored two victories and suffered three defeats in the first five matches fired this season. The wins were against Armour Tech and the University of Wisconsin while the losses were dropped to the University of Maine, Oregon State College, and Washington State.

There remains several postal matches as well as the Seventh Corp Area intercollegiate match, the Hearst Trophy match and the Society of the American Military Engineers match to be fired.

Sergeant Bertram, the team's instructor, states that the several young shooters who have joined the squad this year give promise of developing into fine shots. He estimates that when these young members are upperclassmen the team will be on par with the high ranking M.S.M. team of last year. Only seven members of the previous fifteen man squad started this season.

Stars as Fick, Fields, Finley, and McAnerney were lost by graduation while Fox is not shooting and Johannes is ineligible for R. O. T. C. matches.
